

Please do not alter Indiana's current laws focusing on phone call solicitations from marketers. I recently moved and have not updated my number in the list and am already disgusted with the number of bothersome calls I am receiving. Life was much more peaceful and family tensions less when we were not receiving the calls. I will not be in favor of supporting those who do not wish to help me enjoy my privacy at home.

Sincerely,

Dan Coffin, Ft. wayne, IN
